

## SPE WEEK 2020

*MIT SPE student chapter is excited to announce the SPE WEEK from 7<sup>th</sup> September to 12<sup>th</sup> September 2020*

The MIT SPE student chapter, established in 1988, is one of the oldest most active chapters in India with 200+ active members and with activities planned throughout the year that not only student centric but also challenge them to broaden their horizon through various competitions. MIT SPE student chapter has been awarded with **Outstanding Student Chapter** award by SPE International in the years 2014 and 2015 and **Gold Standard** award on numerous occasions. Most recently the MIT SPE Student chapter was awarded with **Student Chapter Excellence Award** for the year 2019-20.

Apart from the technical activities, the chapter also engages various outdoors activities such as tree plantation drive, sports week, cleanliness drive, visit to orphanages. These activities benefit the overall growth of an individual through inculcation of the spirit of team building and by making students aware of their social and moral responsibilities toward the society.

This year even amidst the Corona pandemic, we have pledged that nothing must hinder our knowledge and growth and hence are adapting to the virtual learning method. With active participation and enthusiasm of students we could successfully complete the 'Factomania' event and celebrated The International Yoga Day and World Nature Conservation Day, where students shared their yoga practicing and tree plantation photos respectively.

Like every year, we at MIT SPE student chapter have organized the **SPE Week 2020** for exciting discussions and interactions between the students, faculty members and the industry professionals working at respected positions in the oil and gas industry. This year's SPE week will be held from 7th to 12th of September, 2020 which will include Start-up workshops and doubt sessions, Introduction to Deepwater Operations in India and HSE workshop, Well Construction workshop, Reservoir Engineering workshop, Women in O&G and Resume Building Workshop

The start-up workshop will help guide the students who are curious and aspire to create and innovate. Introduction to Deepwater Operations in India and HSE workshop, Reservoir Engineering workshop, Well Construction workshop will introduce students to the 'industry' side of petroleum engineering through interaction and day long sessions with industry professionals. The Women in Oil and gas industry is a unique initiative taken up by SPE International that provides opportunities to the women working in male-dominated industry to showcase their talent, share their expertise and perspective and be heard on a global platform. Resume Building Workshop is specially designed to break the binary in the O&G and will guide students about how to write a professional resume that will look impressive.

At MIT SPE Student Chapter we always nurture student talents through right opportunities and by evoking a thought process for innovations and creativity and keep the flow of knowledge resources open to the students for their unceasing learning process.
